Revision: 16.09.2017

Trade name: ergo 4203

		(Contd. of page 1)
CAS: 80-15-9	α,α -dimethylbenzyl hydroperoxide	≥ 0.25 - < 1%
EINECS: 201-254-7	Org. Perox. E, H242; Acute Tox. 3, H331; STOT RE 2, H373;	
Index number: 617-002-00-8	Skin Corr. 1B, H314; Aquatic Chronic 2, H411; Acute Tox. 4,	
	H302; Acute Tox. 4, H312; STOT SE 3, H335	
CAS: 114-83-0	2'-phenylacetohydrazide	≥ 0.1 - < 1%
EINECS: 204-055-3	Acute Tox. 3, H301	
- Additional information: For	the wording of the listed hazard phrases refer to section 16.	

SECTION 4: First aid measures

- 4.1 Description of first aid measures

- General information: Remove any clothing soiled by the product.
- After inhalation:
- Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.
- In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: After contact with skin, wash with plenty of soap and water.

- After eye contact:

- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- After swallowing:
- Rinse out mouth and then drink plenty of water.
- If swallowed, do not induce vomiting: seek medical advice and show this container or label.
- 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

SECTION 5: Firefighting measures

- 5.1 Extinguishing media

- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- 5.2 Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- In case of fire, the following can be released:
- Nitrogen oxides (NOx)
- Carbon monoxide and carbon dioxide
- Danger of forming toxic pyrolysis products.
- Under certain fire conditions, traces of other toxic gases cannot be excluded.
- 5.3 Advice for firefighters
- Protective equipment:
- Wear self-contained respiratory protective device. Do not inhale explosion gases or combustion gases.
- Additional information
- Cool endangered receptacles with water spray.

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Avoid contact with the eyes and skin.
- 6.2 Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system. Do not allow product to reach sewage system or any water course.

- 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

(Contd. of page 2) Dispose of the material collected according to regulations. - 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 10 for information on "stability and reactivity". See Section 13 for disposal information. **SECTION 7: Handling and storage** -7.1 Precautions for safe handling No special precautions are necessary if used correctly. - Information about fire - and explosion protection: No special precautions are necessary if used and stored according to specifications. - 7.2 Conditions for safe storage, including any incompatibilities - Storage: - Requirements to be met by storerooms and receptacles: Store only in the original receptacle. - Information about storage in one common storage facility: Not required. - Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles. Protect from heat and direct sunlight. Store receptacle in a well ventilated area. - Storage class (TRGS 510, Storage of hazardous substances in non-stationary containers): 10-13 -7.3 Specific end use(s) No further relevant information available. **SECTION 8: Exposure controls/personal protection** - Additional information about design of technical facilities: No further data; see item 7. -8.1 Control parameters - Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. - Additional information: The lists valid during the making were used as basis. -8.2 Exposure controls - Personal protective equipment: - General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals. Wash hands before breaks and at the end of work. - Respiratory protection: Not required. - Protection of hands: Protective gloves on prolonged contact with skin. Check protective gloves prior to each use for their proper condition. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation - Material of gloves Find below a list of appropriate protective gloves for chemical surrounding: Permeation time / penetration time: = 480 minutes (DIN EN 374): Naturlatex I, Nr. 0395 oder 0403 Chloropren Nitril I, Nr. 0727 Nitril I, Nr. 0730, 0732, 0733, 0736, 0737, 0738, 0739 oder 0836 Viton, Nr. 0890 Butyl II, Nr. 0897 Butyl, Nr. 0898 Permeation time / penetration time: = 240 minutes (DIN EN 374): (Contd. on page 4) - CHGEN

Revision: 16.09.2017

(Contd. of page 3)

Trade name: ergo 4203

Chloropren Nitril II, Nr. 0717 Nitril VI, Nr. 0754 Nitril V, Nr. 0764

of KCL company (e-mail: vertrieb@kcl.de).

The recommendation is based exclusively on the chemical compatibility and the test according to EN374 under laboratory conditions.

Requirements can vary according to the use. Therefore, please always take into account the glove supplier's recommendations.

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Eye protection: Avoid contact with the eyes.

SECTION 9: Physical and chemical properties

- 9.1 Information on basic physical and c - General Information	hemical properties	
- Appearance: Form:	Fluid	
Colour:	Violet	
- Odour:	Mild	
- Odour threshold:	Not determined.	
	Not determined.	
- pH-value:	Not determined.	
- Change in condition		
Melting point/freezing point:	Undetermined.	
Initial boiling point and boiling range	: Undetermined.	
- Flash point:	> 100 °C	
- Flammability (solid, gas):	Not applicable.	
- Ignition temperature:		
Decomposition temperature:	Not determined.	
- Auto-ignition temperature:	Product is not self-igniting.	
- Explosive properties:	Product does not present an explosion hazard.	
- Explosion limits:		
Lower:	Not determined.	
Upper:	Not determined.	
- Vapour pressure:	Not determined.	
- Density at 20 °C:	1,2 g/cm ³	
- Relative density	Not determined.	
- Vapour density	Not determined.	
- Evaporation rate	Not determined.	
- Solubility in / Miscibility with		
water:	Not miscible or difficult to mix.	
- Partition coefficient: n-octanol/water:	Not determined.

		(Contd. of page 4)
- Viscosity:		
Dynamic at 25 °C:	14 000 - 20 000 mPas (Brookfield (5/2,5))	
Kinematic:	Not determined.	
Organic solvents:	0,4 %	
- 9.2 Other information	No further relevant information available.	

SECTION 10: Stability and reactivity

- 10.1 Reactivity No further relevant information available.

- 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications. Protect from heat and direct sunlight.
- 10.3 Possibility of hazardous reactions Reacts with metal-salts.
- 10.4 Conditions to avoid No further relevant information available.
- **10.5 Incompatible materials:** No further relevant information available.
- 10.6 Hazardous decomposition products:

No dangerous products of decomposition if used and stored according to specifications.

SECTION 11: Toxicological information

- 11.1 Information on toxicological effects

- Acute toxicity Based on available data, the classification criteria are not met.

- LD/LC50 values relevant for classification:

80-15-9 α,α -dimethylbenzyl hydroperoxide

0010 00,	unnern,	jibenzyi nyu oper oxiae	
Oral	LD50	382 mg/kg (rat)	
Dermal	LD50	500 mg/kg (rat)	
Inhalative	LC50/4 h	220 mg/l (rat)	
114-83-02	114-83-0 2'-phenylacetohydrazide		
Oral	LD50	270 mg/kg (rat)	

- Primary irritant effect:

- Skin corrosion/irritation Repeated exposure may cause skin dryness or cracking.

- Serious eye damage/irritation Slight irritant effect possible.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Additional toxicological information:
- No experimentally found toxicological data are available for this preparation.
- CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

-12.1 Toxicity

- Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
